

**LEGAL**

Terms of service, privacy policy and limited warranty for the Nokia WiFi Beacon (a "Product") can be found at [www.nokia.com/wifi/legal/](http://www.nokia.com/wifi/legal/).

**SAFETY GUIDELINES**

ALWAYS READ THE NOKIA WIFI USER GUIDE BEFORE SET UP OR USE OF THE PRODUCT. IT IS YOUR RESPONSIBILITY TO FAMILIARIZE YOURSELF WITH THE PRODUCT REFERENCE GUIDE, THE ONLINE USER GUIDE AND WARNINGS, AND TO USE A PRODUCT PROPERLY. USER INSTRUCTIONS CAN BE FOUND AT [WWW.NOKIA.COM/WIFI/SUPPORT/USER-GUIDE/](http://WWW.NOKIA.COM/WIFI/SUPPORT/USER-GUIDE/). PLEASE CONTACT YOUR SERVICE PROVIDER FOR CUSTOMIZED USE CASES.

**Warning - Risk of electric shock or fire**

Connect the Product power adaptor or cord to the right supply voltage applicable in your country.

Pay attention to the power load of the electrical outlet and possible extension cord. An overburdened power outlet or damaged cords and plugs may cause electric shock or fire. Check the power cords regularly. If you find any damage, replace the cord immediately.

Do not connect the plug into an extension cord, receptacle, or other outlet unless the plug can be fully inserted with no part of the blades exposed.

Leave adequate space for heat dissipation to avoid any damage caused by overheating the Product. Do not cover the Product or its ventilation holes. Blocking the ventilation holes may cause fire.

Use the power adapter provided with your Product and do not fasten the power cable to building surfaces. Ensure the cable can move freely. Do not place heavy objects on the cable.

Do not use the Product outside, and make sure all the connections are indoors.

Do not install, use, or service this Product during a thunderstorm. There is a remote risk of electric shock from lightning.

The standby power consumption of the device is 5.60W.

**Caution - Potential equipment damage**

Follow these recommendations to protect

yourself and the Product from harm:

Do not insert any sharp object into the openings of a Product.

Do not put a Product near a heat source. Avoid placing the Product in direct sunlight.

Do not put the Product in damp or wet locations; for example, near a bathtub, washbowl, kitchen sink or laundry tub, in a wet basement, or near a swimming pool. Do not spill any liquid on the Product.

Do not touch the Product or its power adapter or cord with wet hands.

Do not place the Product on an unstable surface or support.

Do not place heavy objects on top of the Products.

Do not use liquid or aerosol cleaners; unplug the Product and use a soft, dry cloth for cleaning.

When connecting a PC or other electronic device to a Product, make sure you use the right cables and connect the device to the right port of the Product. Incorrect connections may damage the device and/or the Product.

Do not open or try to open the Product. Opening or removing covers can expose you to dangerous high voltage points or other risks.

It is recommended that users and other individuals maintain a distance of at least 10 cm between themselves and the Product to avoid exposure. The Product contains components that emit an electromagnetic field and could interfere with pacemakers or other electronic medical devices. If you have a pacemaker or other implantable or personal medical device, please consult your physician or medical device manufacturer about the required minimum safe distance between the Product and your medical device.

If the Product malfunctions or fails to perform as expected, stop using it immediately.

**ENVIRONMENTAL AND REGULATORY REQUIREMENTS****EU RoHS (Restriction of Hazardous Substances Directive)**

Restriction of the Use of Certain Hazardous

Substances in Electrical and Electronic Equipment (2011/65/EU).

Nokia Solutions and Networks Oy declares that the Nokia WiFi Beacon 2 is in compliance with Radio Equipment Directive 2014/53/EU; Low Voltage Directive 2014/35/EU; EMC; Directive 2014/30/EU; Directive RoHS 2011/65/EU; and Directive Eco-design 2009/125/EC.

For more information please go to [www.nokia.com/wifi/legal/regulatory/](http://www.nokia.com/wifi/legal/regulatory/).

**End of Life Collection and Treatment**

In the European Union and European Economic Area, this label indicates that this product should not be disposed of with household waste. It should be deposited in an appropriate facility to enable recovery and recycling.

The Product is marked with this symbol, which is known as the WEEE mark. WEEE stands for Waste Electronics and Electrical Equipment. Electronic products bearing or referencing the WEEE mark shown above, when put on the market within the European Union (EU) and European Economic Area (EEA), shall be collected and treated at the end of their useful life, in compliance with applicable EU and local legislation. They shall not be disposed of as part of unsorted municipal waste. Due to materials that may be contained in the Product, such as heavy metals or batteries, the environment and human health may be negatively impacted as a result of inappropriate disposal.

At the end of their life, the Products are subject to the applicable local legislations that implement the European Directive 2012/19/EU on WEEE. There can be different requirements for collection and treatment in different member states of the European Union.

In compliance with legal requirements and contractual agreements, where applicable, Nokia will offer to provide for the collection and treatment of Products bearing the logo above at the end of their useful life, or Products displaced by Nokia equipment offers. The equipment can be disposed at electronic waste collection points or to stores that sell electronics.

For information regarding take-back of equipment by Nokia, or for more information

regarding the requirements for recycling/disposal of the Product, please contact [wifi.care@nokia.com](mailto:wifi.care@nokia.com). Regulatory compliance information, including EU Declaration of Conformity, can be found at [www.nokia.com/wifi/legal/regulatory/](http://www.nokia.com/wifi/legal/regulatory/).

**Simplified EU Declaration of Conformity**

Hereby, Nokia Solutions and Networks Oy declares that the Nokia WiFi Beacon 2 is in compliance with Radio Equipment Directive 2014/53/EU; EMC Directive 2014/30/EU and Directive RoHS 2011/65/EU. The full text of the EU declaration of conformity, as well as additional compliance information, is available at [www.nokia.com/wifi/legal/regulatory/](http://www.nokia.com/wifi/legal/regulatory/).

Products are for indoor use only.

In accordance with Article 10.8(a) and 10.8(b) of the RED, the following tables provide information on the frequency bands used and the maximum radio frequency transmit power of the Products for sale in the EU and other countries of sale:

**Specific precautions for EMC Warning**

The Products are compliant with Class A of EN 55035. In a residential environment this equipment may cause radio interference. The Products are tested to the requirements of EN 55035 (Emissions) and EN 55024 (Immunity). There are no specific precautions which must be taken in order to comply with the requirements of Directive 2014/30/EU Essential Requirements in Section 1 of Annex I. In addition, the Products are further tested to ensure spurious emissions are within the specified limits, as well as meeting the requirements for adaptivity, which mitigates against problems caused by co-location with other wireless products. The Products are not subject to the requirements in Section 2 of Annex I of Directive 2014/30/EU for fixed installations.

**For Products Purchased in the United States**

This device complies with part 15 of the U.S. FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### **No Unauthorized Modifications:**

Do not make any changes or modifications to the Product without the prior express written approval of Nokia. Any changes or modifications made without express written approval could void the user's authority to operate the device.

#### **FCC Guidelines for Human Exposure**

**FCC** The Product complies with FCC radiation exposure limits set forth for an uncontrolled environment. The Product should be installed and operated with minimum distance of 20cm between the radiator and your body.

#### **FCC Information to User**

The Product does not contain any user serviceable components and is to be used with approved antennas only. Any product changes or modifications will invalidate all applicable regulatory certifications and approvals.

The Product and its antenna(s) must not be co-located or operated in conjunction with any

other antenna or transmitter.

#### **For Products Purchased in Australia and New Zealand**

The Product is marked with the Regulatory Compliance Mark shown above. This device is compliant with AS/NZS 60950.1: 2015 – Information technology equipment – safety Part 1: General requirements, AS/NZS 3820:2009 – Essential safety requirements for electrical equipment, AS/NZS CISPR32:2015 – Electromagnetic compatibility, AS/NZS 4268:2017 – WiFi (short distance RF communications) and AS/NZS 2772.2:2016 – RF Exposure.

The power adaptor for the device is certified and registered in the Electrical Equipment Safety System (EESS) national database that can be freely searched for and viewed by any member of the public at <https://equipment.eric.gov.au/Registration/>.

The Environment Friendly Use Period for the Product is:

For more information please go to [www.nokia.com/wifi/legal/regulatory/](http://www.nokia.com/wifi/legal/regulatory/).

The Products are for indoor use only.

Additional product use information can be found at: [www.nokia.com/wifi/support/](http://www.nokia.com/wifi/support/).

For product support, please contact your point of contact listed in the hardware warranty.
